Prof. Dr. Eric Duval  
(Katholieke Universiteit Leuven, Belgium)

Now that the basic technical standards for an open, global learning infrastructure are rapidly maturing, it is time to shift our focus to the development of an integrated toolset that hides the technical complexities from the end user and that enables the author, teacher and learner to be more effective and efficient. In this talk, we will discuss some new approaches to realise this idea and we will showcase practical applications that illustrate these approaches.
